The Republicans wished to reserve the national anthem for high festivals; but the Radicals knowing it to be disagreeable to the Conservatives, seem determined to force every band which performs in public, to play the revolutionary hymn. The Radicals, in fact, counting on impunity, appear bent on committing excesses. The day before yesterday, a couple of priests narrowly escaped being thrown into the canal near the Bastille. Should these acts of violence continue, they will have to be put down with a strong hand, or else numbers of persons who have accepted the Republic will, as on other occasions, become alarmed and clamour for another form of government. The "Reign of Terror" killed the First Republic; the Second Republic owed its destruction to the Socialists; the Third Republic had a miraculous escape after the was impossible, and retreat imperative. Lord Chelmsford has come home from Zululand, and is very cross because the newspapers have had so much to say about his generalship; and he has been "shooting off his mouth" a good deal about it. The queen, etc., have been trying to make him feel comfortable; but Englishmen will talk, and a late number of the John Bull most pointedly says:

It was. perhaps, natural that Lord Chelmsford should have been tempted to reply to the severe strictures that his conduct of the war in South Africa has called forth. There is an unhappy indifference to facts, when he speaks of the misrepresentations to which he has been subjected, and atparty bias. It happens that the sharpest animadversions on Lord Chelmsford have been made in Conservative journals, and by writers of Conservative opinions. FIFTY YEARS.

Anniversary.

The semi-centennial anniversary of the pastorate of the Rev. William Shelton, D. D., was commemorated at St. Paul's Cathedral, Buffalo, on the 15th instant. The chancel had been beautifully decorated with flowers, plants, and vines of every description, and presented a most attractive appearance. The figures 1829 and 1879 were conspicuous in the back-ground.

The Holy Eucharist was celebrated at eight o'clock, and at half-past ten morning ready to come in when they are telephoned: document about Epirus, and dangerous prayer was said. A Choral Service was held in the afternoon, beginning at 4.30. This was more especially for the Sunday school children. The singing was led by the surpliced choirs of St. Paul's and St. Luke's The Rev. Mr. Gurteen officiated, and was assisted by several other clergymen. It was expected that the esteemed Rector would be in attendance and make a brief address, but he was too tired after his effort of the morn-

The evening service attracted a congre gation which filled every seat in the spacious edifice. A long procession of clergymen entered the church from the vestibule and marched up the center aisle to the chancel. After a shortened service, addresses were made by Bishops Coxe and Talbot, Revs. Dr. Bolles, Lloyd, Windsor, A new Missionary Canon was passed, S. Burford. He spoke of the good taste and appropriateness of the decorations, and congratulated both pastor and congregation on the mutual benefits they had derived from their connection. Referring to the claims of apostolic succession, he said that but thirty-six periods as the one now being celebrated, would carry them back to the time of St. John.

In the evening of the 16th there was a general reception at the parsonage, opposite the Cathedral. About seven o'clock, a company of denominational clergy, twenty-eight in number, entered the house, formed a semi-circle around the veteran Rector, and read a complimentary address. Dr. Shelton was deeply moved, and made an interesting response. Afterward several were about \$25,000.

Among them was a basket of flowers from Mr Charles Felton, of Chicago. At times the crowd was so great that it was difficult to move about. The Doctor had a pleasant word and 'hearty hand-shake for all, and was manifestly exceedingly happy.

Dr. A. R. On Wednesday, the 17th, old St. Paul's Church, Detroit, was the scene of another event in the history and progress of the Church in America, the ordination of its one hundred and twenty-second Bishop. A multitude were in waiting at the church door, long before the hour for service, and pews and aisles were speedily filled. It is estimated that about 1,200 were admitted. After giving an admirable summary of the Epistles to Timothy and Titus, in their relation to the Episcopal Office, the Bishop proceeded as follows:

Surely some of these grand sentences have always been in the thoughts of the true Bishops of all ages, never forgotten for a day. They were with St. Augustine when he leaped on Kentish shores with the enthusiasm of an Apostle; and with St. Anskar when he plead with Olaf for the sovereignty of Christ; and with Ridley and Latimer, as they faced persecution and martyrdom for the sake of the truth; with Seabury and White, as they laid the foundations of an infant Church on the soil of a new republic; with Heber and Selwyn, as they crossed the trackless seas with the heaven, though still on earth.—Charles Saviour's message; with Patteson, as he Kingsley. and with Kemper, as he scattered the seed The diocese of South Carolina reports of the Gospel from the lakes to the Missouour own hopes and prayers.

New York, Sept. 20, 1879. The Publishers have faith to believe in prosperous season to come, and new books are found upon all their counters, many of them books of sterling merit. Among them are a couple of volumes by Mr. Gladstone, being a collection of his ecclesiastical writings, including his late interesting paper on the Evangelical Movement. Mr. Gladstone has been for a generation one of the foremost statesmen in England, for many years the great leader of his party; but he has found leisure for many an excursion into the fields of literature, and for many a paper upon the great subjects which concern the Christian Church. At the same time, a life of Mr. Gladstane is announced, written by Geo. B. Smith, who has had free run of public archives and private papers. It will be a valuable contribution to the history of the last forty years, and will have a large circulation. We find among other books at E. P. Dutton and Co's., a "Life and Work of St. Paul," in 2 vols., by Canon Farrar. and "The influence of Jesus" by Rev. Phillips Brooks, D. D. They will be found worthy of their distinguished authors, and a source of pleasure and profit to all readers. Dr. Stearns, of Maryland, has written a Review of Archbishop Gibbon's work on the Faith of our Forefathers, which has had such a wide circulation among the Roman Catholics. It is published by Whittaker, who also announces "Simple Lessons for Home Use," and "The Shakespeare Birth-day Book." The Vicar of Morwenstow, the most interesting of modern biographies, has reached a second edition. The volume of Dr. DeKoven's Sermons, published in the interest of the endowment fund of Racine College, is nearly ready from the press of the Appletons, and it will be of interest to the whole Church. He was the Ajax Telamon of the Advanced School of Churchmen, and was greatly beloved even by those who most strongly dissented from his views. We could fill a letter with the titles of the books which now occupy the shelves; and we are told that business has but just begun, that in a month's time, affairs will have a far better look. Prices are more reasonable than they have been, but in this direction there is still room for improvement. The war is over, bank bills are at par, salaries have been cut down, but books have not fallen -The Bishop of Iowa has had prepared pro rata. This is especially true of importand is about to publish a Prayer Book in ed books. One fact however compensates, and that is the trade that has sprung up among our principal booksellers, in second hand books. You find upon their shelves, the libraries of deceased clergymen, both in this country and in England; and they are offered at terms that enable the poorest clergyman sometimes to treat himself to a new book. What facilities this offers to parishes to provide a parish library of standard books in theology for the ministers, who are compelled to try and make bricks without straw. There is great complaint of the falling off of congregations, of the decay of the pulpit. The clergy, it is said, are not up to the times, they draw up empty buckets. If it is true, is it not because their poverty has dried up the springs of truth? Action and reaction are equal, and a starved minister makes a starving peo-

We must confess we are inclined to believe that the nerves are but a pretence and a sham, and that the real offense is that the bells remind the people, of God, and of the duties they owe to Him.

Value of the Prayer Book.

Here is an unconscious witness to the value of the Prayer Book, which is both touching and solemn. It is a letter about a funeral out in the Australlan diggingsthe funeral of a poor miner. There was no clergyman to be had, and the crowd of out. The accompaniment, also, and particularly sympathizing fellow-miners had to carry the coffin two miles from the rocky camp, to find earth enough to cover it. Then the writer goes on to say: I inquired if any one had a prayer-book; the inquiry trinsic merits, the proceeds are to be devoted to that noble charity, St. Luke's Hospital, it ought, was passed around the crowd, and it found an affirmative response. It was an English Church Prayer-book. I have been greatly interested in the sketch of pioneer work in Algonquin, given by Brother Arvedson, in two Letters to the LIVING CHURCH. Has been in successful operation for 40 years in the salubrious Valley of Virginia. The following extract from the Report of the Board of Examiners of 1875 shows its claims. In conclusion, your committee cannot too highly commend what has seemed to them the marked and distinguishing features of this institution, the happy combination of the military system of instruction with the departments of science and literary culture, and the more ennobling culture of the heart and soul. Nowhere else have we seen this combination so complete and perfect. We cannot speak of it too highly. It is such a system as fits a pupil for life and for death. Under its guidance he is sure to tread always the path of duty, virtue and honor.

SCRIBE. Church goes all undone.

P. S.-St. John's, Georgetown, D. C., is vacant by the resignation of the Rev. J. J. Joyce. It is one of our most influential parishes; has a church wholly out of debt, a large congregation of liberal-minded folk, and a large Sunday School room adjoining the church. The only drawback to the parish is the parsonage! This, on the lot next to the church, is so large, fine, and fortable salary of the Rector.

Grace, on the "Island," or South Washington, is very kindly being provided with services by the Rev. Drs. Addison and Church, Washington, until it can procure a Rector. The church has been condemed by the Inspector of Public Buildings, and some thousand or more dollars will be

needed to make it safe.

If any New Jerseyan Churchman see the LIVING CHURCH, I take the liberty of saying that if they are going to look outside of their half of Jersey for a Bishop, the The Rev. Dr. Paret, of the Epiphany; the Rev. Dr. Lewis, called at one time to Grace Church, Newark, N. J.; the Rev. Dr. Townsend, formerly of your own Diocese, may be mentioned.

Kannitverstan.

A Story for Children.

Translated from the German for the LIVING CHURCH.

A man, if he desire it, has probably a daily opportunity of contemplating the changeableness of all earthly things, and of becoming contented with his own lot, round in the air for him.* But, by the oddest roundabout way, a German apprentice in Amsterdam came, by means of an error, to the truth, and to a knowledge of it. For, upon his arrival in that great and rich commercial city, full of magnifiand rich commercial city, full of magnifiand rich commercial city, full of magnifiant result follows. An innocent creature is at first shocked by covert insinuations of acts, of the very names of which she ought to be ignorant. The plot of the story is "thrilling," however, and a young person sees no harm in reading that which person sees no harm in reading that which is and read by the elders and so the first step.

They restore all weak-nesses of mind or body; relieve debility and nervousness; give vitality in the insufficient growth of children; strengthen digestion; cure neuralgia and person sees no harm in reading that which is a constant. he immediately noticed one large and beautiful house, the like of which he had not seen upon his entire journey from Tut tlingen to Amster am Long looked he with admiration at this costly building, at the beautifil cornices, and the lofty windows, larger even than the door of his father's house at home. Finally, he could not refrain from addressing a man, who was passing by: "Good friend," he said to him, "can you not tell me the name of the gentleman to whom that beautiful house, with its windows full of tulips, gillyflowers, and roses, belongs?" The man, however, who probably had something developed. The lessons learned at this more important to do, and who unfortunately understood just as much of the German language as his questioner did of Dutch, namely, nothing, answered shortly and snarlingly: "Kannitverstan;" and hurried along. That is a Dutch word, or indeed three, if it be rightly considered; and in German means as much as—"I can-not understand you." But our good stranger believed it to be the name of the man about whom he had asked. "That must be a very rich man, Herr Kannitverstan," he thought, and went on. Passing along street after street, he finally came to the bay, which is there called "Het Ey," or in German "Das Ypsilon." There now lay ship after ship, here rose mast after mast; and at first he did not know how he, wi h his two single eyes, could ever sufficiently see and contemplate all those martyrs of domestic tyranny, and lauded curiosities, until one large ship at last attracted his attention, which a short time before had arrived from the East Indies, and was even now being unloaded. Already, whole rows of chests and bales were placed upon and near each other on the land; and yet more were ever being rolled out-casks full of sugar, and of coffee, and of rice, and of pepper. But when he had looked on some time, he at last asked a spirit; every one in authority is held up to man, who was just passing by with a chest ridicule; parents, teachers and employers. on his shoulder, the name of the fortunate one for whom the sea had brought all those goods to shore. "Kannitverstan," was the answer. Then thought he: "Ha! ha! erable illustrated periodicals, that attract the eye on every news-stand. Vice is rep-

We find the following letter in one of the daily papers. One who knows anything of the noble work that St. Luke's has already done cannot but be urged to meet the Rev. Doctor's appeal with the best of his ability:

During the summer it receives very little, and is now in debt about \$2,000. It has an income from invested funds of about \$1,000 a year, but its expenses are about \$11,000, and for the rest it depends entirely upon charity. Bishop Johns, when a young manin Boston, wore the most modest side whiskers, for which the venerable Bishop Moore reproved him. He died full of years and full of beard, and nobody reproved him. The first person with full beard we ever saw in the chancel, was Mr. Southgate—afterwards Bishop Southgate. We liked it not; now we do not so much as notice whether a man wears a beard or not. Strange how customs change, and men change with them. It is about time we all learned a little more charity in regard to things indifferent

It is about time also that this Virginia paper whose mission seems to be to scold at everybody who won't adopt the Virginia way of doing things, should apply its good sense in respect of beards, to flowers, altar cloths, and many other things indifferent, about which it now tears a passion to tatters.

The Interior says in regard to some recent lively correspondence in Salem, Mass.: "The modern Salem Quakers have the best of the argument. When any act of cruel persecution is mentioned which was perpetrated by our ecclesiastical or natural ancestors, we say: 'O, well, but that was in the sixteenth century, not the nineteeth,' as if the time of day made any difference in the moral quality of the act. If those people did not know better, it was their own fault. They had not only the ed him." teachings of Christ, but the teachings of good men then living, to restrain them from the indulgence of cruel and malvolent passions against others, for no other reason than that they claimed liberty of conscience."

Subject-The Three Great Feasts. For Older Scholars.

WHEN the children of Israel were about to enter the land of promise, God commanded that they should observe three great feasts every year, the feast of unleavened bread, the feast of weeks, and the feast of tabernacles. These festivals had in view respectively the commencement of harvest at the Passover, the completion of it at Pentecost, and the gathering of the vintage

The first feast, the Feast of the Passover, was a re-institution of the festival appointed first in Egypt. It had not been celebrated, however, for thirty-seven years, owing to the sentence pronounced upon the Jews at Kadesh-barnea. As they were now to enter Canaan, Moses reminds them of the obligation and enjoins the Feast. It was to be ob erved in the month Abib, THE following extract from a famous the name meaning "first-fruits," and com-London paper, might—by changing the prehended the latter part of our March word "London" to "Chicago"-apply and the beginning of April. The third festival was the great harvest home of the Jewish people. It lasted seven days, and was kept after the corn and wine had been gathered in, and was called the WE copy the following from a church reproduction of Tabernacles. It was likewise a time of rejoicing. The year's work was done, God had blessed the labor of men's hands; they came before Him in token of their faith, love and thankfulness for His many benefits. This feast, too, came probably about the time of year at which our Lord was born, the Word who tabernacled in our flesh and so dwelt in us.

Surely God has given His people every inducement to keep sacred certain days of commemoration. If the Jews were to remember the passover and their deliverance from the bondage of Egypt, surely we are to keep in mind Christ, our Passover, and the deliverance of our souls from the bondage of sin, satan and death; if the Jews were to keep Pentecost because of God's care and blessing, as an evidence of His indwelling in His people, how much more shall our Pentecost be joyfully kept, insomuch as on that day the Holy Ghost came upon the expectant disciples. If the Feast of Tabernacles is joyful because of the certainty of God's fatherly care, surely we may now rejoice in that the word has been made Flesh and God has Himself tabernacled amongst us.

The principle is First, that men remember important events more readily if particular days are appointed for their commemoration; Secondly, that man thus expresses his thankfulness to God for benefits.

Thus all the males among the Jews appeared before the Lord in Jerusalem, and on each occasion each man brought an offering as he was able, according to the blessing wherewith God had blessed him.
