The Sifting of Peter.

In St. Luke's Gospel we are told How Peter in the days of old Was sifted; And now, though ages intervene, Sin is the same, while time and scene Are shifted

Satan desires us, great and small, As wheat to sift us, and we all Are tempted: Not one, however rich or great, Is by his station or estate Exempted.

No house so safely guarded is But he, by some device of his, Can enter; No heart hath armor so complete But he can pierce with arrows fleet

Its centre.

For all at last the cock will crow, Who hear the warning voice, but go Unheeding, Till thrice and more they have denied The Man of Sorrows, crucified And bleeding.

One look of that pale suffering face Will make us feel the deep disgrace Of weakness;
We shall be sifted till the strength Of self-conceit be changed at length

To meekness. Wounds of the soul, though healed, will ache; The reddening scars remain, and make Confession;

Lost innocence returns no more; We are not what we were before

But noble souls, through dust and heat, Rise from disaster and defeat The strong And conscious still of the divine Within them, lie on earth supine

No longer. -H. W. LONGFELLOW.

The Burial Bill, introduced by Lord Selborne, proposes in brief that the person responsible for a funeral shall be allowed to give notice that the deceased is to be buried without the service of bigotry. the Church of England; that at the burial, all persons may have access to the graveyard; and that at the option of the person responsible, the burial may be performed either without any religious service or with such "Christian and orderly religious service" as shall seem fitting to

The miserable Bradlaugh has not yet been allowed to take his seat in the House of Commons, and it does not seem very likely that he will. The Roman Catholic O'Donnell, speaking on that point, stated the case very clearly. He said the question was not the case of an Atheist who came up to take the oath, without obtruding his infidelity on the House; it was the case of a man who lived by his open Atheism. That was his stock in trade. To receive him, committed the House to a quasi-condonement of his vile doctrines. The following instances must have hit hard:

"Suppose that a man of unenviable notoriety, who went around the country preaching the most who went around the country preaching the most subversive and the most disgusting doctrines— (hear)—dubious as his trade and calling were, felt it necessary, as the more honest traffickers did, to obtain a larger advertisement; suppose that it occurred to him that it would be a usefu advertisement for the sort of business in which he was engaged, to be able to print after his name, the letters 'M. P.' voon the title-page of some vile and abominable pamphlet—(cheers)—that was sold in the by-ways and lanes of our great cities, that was addressed not only to the mature judgment of men and women, but was thrust by agents into the hands of youths and maidens of tender years; that inculcated practices of the foulest debauchery upon the youngest and most susceptible minds; that, appealing to the commu-nity at large, would reduce Christian, Jewish, and human wedlock and human love. dlock and human love to some thing lower than the union of beast and beast and suppose it occurred to this man, that he would be able to obtain that advertisement by writing in some paper of large circulation that he would only consider the forms of the House as a meaningless mockery. This was what was involved in the casuistry of the responsible Government of a Christian people—(cheers)—that such an open announcement of a most immoral course was to pass muster in that House with the oaths and solemn affirmations of honorable

The Duke of Edinburg played on Saturday night at the Albert Hall, the violin obligato in Gounod's "Ave Maria" to Marie Roze's soprano solo. It seemed to me, that—although accustomed to face the public—his Royal Highness was at first a little nervous, and his bow seemed slightly to tremble; but, as he went on, his wings unfolded, and he went to work boldly. Marie Roze, in a gold brossde dress and diamond even Roze, in a gold brocade dress and diamond eyes sang, rivaling the intonation of the violin; and an encore was the unavoidable consequence. Afan encore was the unavoidable consequence. Ar-ter his performance, the Duke packed his two fiddles (a Guarnerius father and a Guarnerius son) in the famous leather case, locked it with his key, and off he is again to Ireland, to help where help is needed; then he goes on board his ship, and will not be regularly seen in London, before the middle of August.

To the unsophisticated American, the terrible fuss which the English Protestants are making. about the appointment of the Roman Catholic Marquis of Ripon to the Governor Generalship of India, and of the Roman Catholic Lord Kenmare as Chamberlain to the Queen, seems highly absurd. Why should there be no Romanists absurd. Why should there be no Romanists in office? Why was no fuss raised over the apappointment—during the last administration—of the Moodyite, Lord Cairas? Would there have been a word said, if Lord Ripon had happened to be a Unitarian? Roman Catholics may hold false doctrine; but is there anything in that system, which will prevent Lord Ripon from faithfully and conscientiously doing his duty as a Governor? NINETIETH ANNUAL CONVENTION. Correspondence of the LIVING CHURCH.

This session of Convention was opened on the 9th, by Morning Prayer, Rev. Messrs. E. H. Randall, of Poultney, Bliss, of Burlington, and Thornlow, of the Diocese of Quebec, officiating. The Convention then organized by choosing T. H. Canfield, of Burlington, Secretary, with Fred. and J. H. Williams, Bellows Falls.

The Bishop, in his Address, stated that, among and ordained one Deacon and one Priest. In accordance with a suggestion made by the Bishop, a committee was appointed to draw up an address to the Legislature, on the subject of divorce, and to co-operate with any other religious body or association to influence public sentiment and legislation.

The following persons were elected Deputies to the General Convention: Clerical, Revs. E. R. Atwill, N. F. Putnam, W. H. Collins, and E. H. Randall; Lay, George F. Edmunds, T. P. Redfield, C. Clement, and J. H. Williams.

The sermon at Evening Prayer was by the Rev. Louis A. Arthur, of Island Park, from Exodus xx:4,5, andwas a vigorous and manly discourse. On Thursday, some important changes were made in the arrangements of the Diocese, for Doe, Reigart, Helfenstein, and Paul. Missionary work, involving the abolition of the

THIETY-FOURTH APNUAL COUNCIL. Correspondence of the Living Church.

Last week closed another year of what in this western country we may all one of our old dioceses. The Wisconsin Council assembled at All Saints Cathedral for its thirty-fourth session, on Thursday the 15th. There was a large attendance of the clergy, and nine sen parishes and four missions were represented by lay delegates the first day. The business meetings of the Session were held in the hall of the Cathedral.

The Bishop's Address showed a year of hard work and encouraging results. The number of vised against any legislation on this subject, thinking it wise to continue the Cathedral for a series of years, as he found it.

In the evening there was a large missionary meeting. The service was choral. The Bishop and several of the clergy made short addresses. Among the latter was the Rev. Dr. Batterson, of Philadelphia. Mr. H. G. Winslow, of the laity, also made an address. The offering was devoted to Diocesan Missions.

The morning of the second day was principally occupied in the favorite ent of dioceman conventions,—skirm

contention" our annual councils would often be very tame affairs. The discussion of this subject was carried on into the afternoon session. Much was said against the system of assessing upon the number of communicants. The system in use in the dioceses of Illinois, assessing the parishes upon the basis of real estate owned and salaries paid, has been found, we believe, to work better. Quiney, at her last Convention, modified this plan, by making the number of communicants one factor; assessing upon the value of real estate, the amount of salaries paid, and the number Harris. The Hon. J. M. Woolworth, H. M. Sesof communicants. This seems to be most equitable; but even with this plan, and with a Board cases, there will always be appeals to the Convention to remit arrearages, by one parish and to be for the Council to refuse to consider such appeals unless they come direct from the Board a whole Convention to exhaust its time in explanations and arguments over a few dollars of asin economy.

At the evening session an amendment to the the number of communicants, but limiting the number of delegates to seven, and giving to the even a berth is obtained with difficulty. Of was awarded to Miss Jessie Devereaux. smallest at least one delegate.

The following were elected on the Standing Committee: the Rev. Drs. Ashley, Kemper, Spalding, and Keene; Messrs. Helfenstein, Smith, Reigart, and Winslow. Deputies to General Convention, the Rev. Drs. Adams and Kemper, and Revs. Royce and Seabrease; Messrs.

At the meeting of Thursday, Bishop Talbot was present and made one of his short and happy speeches. A committee was appointed to report upon the portion of the Bishop's address relating to the Kemper Hall property. The school and the action seemed to have raised some ques

Ward moved its indefinite postponement; Dr. Adams favored the motion, and Bishop Wells, expressing his perfect willingness that such action should be taken, the appointed a committee to execute the raising of the funds, and the Committee pledged itself, by a rising vote, to sustain them. The Convention accepted an invitation to meet at Burlington for its next session. Correspondence of the Living Church. The Thirteenth Session held in Trinity Cathe-

dral, Omaha, on the 26th and 27th ult., was an occasion of peculiar interest, on account of the presence of several distinguished guests, who had gathered there to do honor to the ceremony of laying the corner-stone of the new Cathedral on the previous day; a description of which has already appeared in our columns. Besides the Bishop of the Diocese, and the clerical and lay delegates, there were present—the Bishops of Minnesota, Kansas, Colorado, and Northern Texas; the Rev Dr. Bunge, of St. Joseph, Mo.;

H. H. Sattersofo D. D., of Philadelphia;

Rithe Rev. Srs. Durlin, of Ripon, Wisconsin, and Joshua V. Himes, of Elk Point, Dakota.

The sermon at the Opening Service was preached by Dr. Batterson, from Num. x: 29. And Moses said unto Hobab, the son of Raguel the Midianite, Moses's father-in-law, we are journeying unto the place of which the Lord said, I will give it you. Come then with us, and we will do thee good; for the Lord hath spoken good concerning Israel."

When the Council was called to order, at 3 P. M., there were found to be twenty clerical members present, including the Bishop, and lay representatives from ten parishes, to which another was subsequently added. The Rev. James Paterson was unanimously re-elected Secretary, and appointed the Rev. Henry W. Meek to be his assistant. Mr. Julian was unanimously re-elected Treasurer.

On motion, the visiting Bishops and other clergy present were admitted to seats, during the session of the Council. After the transaction of a good deal of business, mainly of a local character (although in some particulars bearing upon interests which enter into the life of the Church at large), the Bishop read his Annual Address, which was one not only of great interest to his own Diocese, but to all, also, who are watching the progress of the Church in the Great West. It appeared that, at the present time there arein connection with the Diocese-one postulant, and four candidates for Holy Orders. The number of persons confirmed during the past year, was 136. In the discharge of his official duties, the Bishop had traveled 11,500 miles.

We could not say over that dreadful wreck and its dead: "Died by the visitation of God." We were ourselves on the Stonington, and heard the crash of the collision. We rose from our berth, to which we had retired a half an hour before, and opened the door of our stateroom and looked out to see what was the cause of
the unusual noise. There the men lay upon the
floor on pallets as we had left them: there was floor, on pallets, as we had left them; there was no sign of extraordinary disturbance, and we

passengers had passed. We did not know of it until we had stepped on shore, supposing we were in New York; and it was the unfamiliar surroundings that led us at last to enquire, where we were, and what was the matter. We had noticed a good many of the passengers wrapped in blankets, but so we had two nights before, the Narragansett, because of the cold; and if any seemed to be something careless in their appear ance, we set no store by it. We tried to be content, and to de our own business, asking no questions for peace sake, to my nothing of conscience. But the key once given us, it unlocked many things that had seemed strange to us. We sought information of the officers, and found them reticent to : degree; and when they did talk, it was clear ... be seen, that they had read to little purpose, if at all, Mrs. Ope's book on Lying. One of them assured us, that he knew no more about it than we did, and generally, even among the sufferers, we found but a vague idea of the calamity or its extent. The people of Stonington came to the boat, soon after it landed, and ministered freely to the sufferers, supplying them with needed clothing, and taking many of them to their homes. Clothing stores were emptied of their contents; and we doubt if there is a town in the country, where there is so little second-hand apparel now to be found. The ladies were like Sisters of Charity, and all the people proved that "one touch" of suffering makes the whole world kin." Seeing us making a note or two, one of them came and offered to write for us. Tables were set in the cabin for the hungry. The berths were full of passengers, many of them covered only by blankets; and some of those who sat at table were draped in the same naterial. The water was found to be cold; and, as the passengers were brought on board, chilled through and exhausted, their wet clothes were taken off, and there were none to replace them. Upon the table, nearest to us, lay a man, dead, covered over with a blanket. All around, were men and women, wear, and bruised. The scene reminded us of a hospital, after a battle; and, eeing what we saw, and hearing what we heard, we could not find it in our heart not to be thankful, not only for a spared life, but for eyes that, for so many hours of that dreadful night, were closed to the sight, and ears that were deaf to the sound of human suffering. We live in a world of everything, if we had grace to see it; is want of faith, that sees the cloud only, and not the silver that lines it.

St. Paul's College, Palmyra, Mo. Correspondence of the LIVING CHURCH.

The Commencement exercises of this institution began on Tuesday night, June 8th, the Rt. Rev. Chas. F. Robertson, D. D., delivering the Annual Address. His subject was, "Some Economic Comparisons suggested by a recent European Journey." The subject was treated in the Bishop's usual felicitous manner. No person living is a more keen observer of men and things than Bishop Robertson. Whatever he writes has a permanent value.

Pittsburg Diocesan Convention. Special Correspondence of the Living Church.

The Fifteenth Annual Meeting of the Convention of the Diocese of Pittsburg was opened on the morning of the 9th inst., in Trinity Church, Pittsburg. A full attendance of the clergy, and a happy spirit of unanimity have given the Convention a pleasant aspect. But the absence of the Bishop, who, having just buried his son, is himself now prostrated with sickness, made a void which has been felt throughout the entire session. Morning Prayer was said at nine o'clock, and was followed by a Celebration of the Holy Communion, the Rev. Dr. Crumpton being Celebrant, and the Rev. Drs. White and Hitchcock, and Dean Rafter, assisting. The sermon, by Rev. H. G. Wood of Sharon, from I John iii: 24, gave a sketch of the progress of the Church in this land, during the last forty years; and showed what great opportunity we have for its extension, if we move forward in the right way. The Offerings, at this and all other services, were made for Diocesan Missions. After Holy Communion, the Convention was called to order in the Chapel, by Rev. Dr. Crumpton, President of the Standing Committee. The Rev. Dr. Hitchcock was elected Chairman, and the Rev. R. J. Coster, Secretary. The roll being called, a committee was appointed to draft resolutions of sympathy, expressing the regret and sense of loss felt by the Convention, in the affliction and absence of the Bishop. The regular Committees were then appointed, and the Convention took a recess till 3 o'clock. At the afternoon session, a telegram was received from the Convention of Central Pennsylvania, offering greetings, and sympathy in the affliction of the Bishop. A committee to respond was appointed, and the Convention proceeded to receive the reports of Committees. A revised edition of the Constitution and Canons of the Diocese was placed at the disposal of the Secretary. Since the meeting of the last Convention, the Standing Committee had given consent to the Consecration of Rev. S. S. Harris, as Bishop of Michigan, Rev. T. A. Starkey, as Bishop of Northern New Jersey, and Rev. J. A. Gallaher, as Bishop of Louisiana; and to the admission of Mr. G. H. Mosier, as candidate for Holy Orders. Ascension amounting to \$4,423.77. Twenty-one Missionaries, working 58 stations, had been assisted by offerings amounting to \$5,100. The call for more men and more money, to meet the demand for services and pastoral care, was most urgent. The Report mentioned the presentation to one of the Mission Stations, by a gentleman, of a Rectory. The Rev. Dr. Curry, of St. Luke's, Philadelphia, gave a spirited discourse, on the consecration of personal inexpediency of encouraging the incorpor ation of feeble parishes. Subsequently, a Resolution was carried; looking to provisions which would subject such parishes to severer tests, on application being made for union with the Convention. The discussion showed plainly that a strong opposition exists to the investing of small and financially weak congregations of doubtful

A Resolution was passed, requesting the Bishop to withdraw from all Episcopal acts for six months. Accompanying this Resolution, was the gratifying statement that five gentlemen, of Trinity Church, Pittsburg, whose names were not allowed to be given, had presented the Bishop with \$2,500 to enable him to take rest, and seek such medical advice and treat-

ment as he might deem proper. Resolutions of fraternal greeting were sent to the "Church of Jesus," Mexico, in the support of which the Diocese of Pittsburg is interested. After some other acts of merely local interest, the Convention adjourned to meet next year in Trinity Church, Pittsburg. The attendance, harmony, and financial condition of the Diocese have combined to make this meeting of the clergy and laity, a happy one in every respect, save the absence and affliction of their Bishop. May he in good time be restored to health and strength! and may the God of all comfort give him consolation! The following is the Resolution adopted by the Committee, with reference to the Bishop's absence: Resolved, That the members of the Convention of the dio cese of Pittsburg, assembled in Trinity Church, Pittsburg, regret deeply the inability of the Bishop to preside over their deliberations. They desire further to as-ful. sure him of their heartfelt sympathy with him and his family, in the sickness and bereavements which have overtaken them, and of their prayers that the Great Head of the Church will comfort him, and restore him speedily to his usual health and strength. They desire, still further, to beg that he will withdraw from all active work for at least six months, and so give himself the rest and refreshment which he so much needs.

A very interesting and tastefully aranged service was that of the Consecration of St. James' Chapel of St. John's Church, Detroit, which occurred on the morning of Tuesday, June 8th. Morning Prayer having been said at an early hour, the later service consisted of the Consecration proper and the Holy Communion, which, with the sermon, formed a service of sufficient variety and agreeable length. At half-past ten, the procession formed in the basement; and, passing out into Walnut street, turned the corner of Seventh street, and entered the chapel at the main entrance. The procession was headed by the young men of the St. John's Church Union, to whom the inception and prosecution of this work are largely due; the Trustees of the Chapel and a representation of the vestry of St. John's Church; about twenty vested clergymen; and Bishops McLaren

The services were for the most part chorally rendered; the organist and choirmaster of the mother church being in charge of the music. That which ought to form the leading feature of every such service—the Celebration of the Eucharist was duly emphasized, and the faithful laity, in large numbers, knelt at the altar. The decorations, in the way of cut flowers and blooming plants, were profuse and taste-

The request for Consecration, and the Instrument of Donation were read by the Rev. Geo. Worthington, S. T. D., Rector of St. John's Church, who was attended by Mr. Geo. H. Minchener, of the vestry, and Mr. Seth Smith, of the Chapel Trustees. The Sentence of Consecration was read by the Rev. Wm. Charles, to whose faithful labors, as minister in charge, the spiritual condition of this congregation is in large measure due. The present minister in charge, the Rev. Stephen W. Frisbie, read the offering; the exhortation was read by the Rev. Samuel B. Carpenter, who was The Nineteenth Annual Convention of in charge of this work for about three years this diocese met, at Charleston. The previous to his resignation, four months ago. The service was not marred by infinitesimal divisions, the two Bishops acting in their appropriate places, and the Rev. A. A. Butler, of Bay City, representing the out-of-town clergy, by reading the latter part of the Office.

The sermon, by the Rt. Rev. the Bishop of Illinois, was a notable one, and deserves publication word for word. It may be explained, that Bishop McLaren abandoned his prominent place in the Presbyterian Communion, and the pastorate of an influential congregation in the city of Detroit, and pursued his course of preparation for received Priest's orders; the Rev. Dr. his nearest friend. But the sermon was-Church's conception of Worship, the main pleadings and argument, and demands of The Report of the said Committee was purpose to which such Houses of God as duty. The Right Reverend preacher's observations on the subject of formalism were judicious and suggestive. But, most striking of all, was that part of the discourse, in which the philosophy of worship was investigated in the light of the well-known poet, that this spiritual and mental exercise is in itself a sufficient antidote and remedy for scepticism. Worship draws the eye away from petty objects, emancipates the human spirit from a narrow range of vision, and—while is asks the soul to bow itself before God-places in its hands the key to universal knowledge. The secondary use of the House of God, as a place for teaching Divine Truth to human souls by direct instruction, as distinguished from the indirect edification that results from the exercises of a spiritual worship, The fifty-second Aunual Council met were then briefly set forth; and the sermon

St. James's Chapel is a handsome brick structure, complete in all its appointments, modations for the Guild and the Sunday School, and a suitable room for week-day services. The congregation of St. James' numbers about 180 communicants, mostly working people of the better class, but in cluding some rising young business men. The part of the city covered by this work is very attractive and promising, every year bringing noteworthy improvements. The congregation is very near to self-support; and the Rev. Mr. Frisbie is to be congratulated on the successful opening of his new pastorate, and the bright promise of this interesting and important work for the Kingdom of God.

At a recent supplementary Visitation at contention and strife.

St. James Chapel, Bishop Harris confirmed ten persons; making, with the earlier class of seventeen, twenty-seven persons presented by the Rev. Mr. Frisbie, since assuming charge of this congregation, four months ago.

in the evening, and preached to a large congregation. He seemed much pleased with the appearance of Church-life in the Mission. It is a great disadvantage, however, of such brief visitations, that it is only a very superficial view of the condition of the community, that is possible. The people here are very sociable. A pleasant, intelligent greeting meets you everywhere in the colony. This impresses a stranger very favorably; and he is apt to conclude that where there is so much of the bright, social life, there must be a good supply of that higher element, developed only in a true Christian life. But this is too often a sad mistake in California.

Rare indeed are the cases where it rises higher than the plane of mere sociability. Visitation. A large proportion had never seen our Bishop; and the opportunity of a sight must not be lost. But he who would take this instance as a sample of the real interest of the people in the Church, would show but little knowledge of California

We enjoyed the Bishop's visit very much; but there is reason to fear that it was entirely too brief to be of lasting benefit to the Mission. We ought, however, to be thankful for what we can get, when the Bishop has to travel 500 miles in order to reach us.

There is a great deal of infidelity in the State-open, bold and defiant. But this is by no means the worst element the

In many respects, the Mission work of Southern California is most difficult. Almost everything, here, has to be done by the clergy, under the most trying circumstances; with but little outside aid from the Diocese, and none from the Domestic Board. The Church, east of the mountains, almost entirely ignores them.

It is not so with the denominations by whom they are surrounded. Lake River-

gives them \$800 per year, for three years, to help sustain one of their ministers. They need a church building, and their Building Society grants them \$700. They write to their friends in the East, and large sums are sent them.

How is it with us? We get \$300 a year from our Diocesan Board, towards the support of a Missionary. We are in great need of a church; but there is no society to aid us. We appeal to many friends in the East for help; and but one has responded with money; others have given pleasant and even sympathetic words; but these will neither buy a beam, nor drive a nail.

And thus it goes. We have to struggle on, under all these difficulties, side by side with the sects, who have an abundance of help; and unless we be more successful than they, we are charged with having failed in our Mission, and are perhaps taunted with the success of those around ed his address to the Council, giving a full persons. as to Kern County, and to know that they have a Mission at Bakersfield. May it prosper, beyond the present state of its fellows in Southern California!

Since my last letter, we have had a visitation of our Bishop. He was with us on Trinity Sunday, May 23rd, at which time, a class of eight were confirmed. At the service, the attendance was very large; and the Bishop preached an impressive sermon. He also visited San Bernardino, in the evening, and preached to a large SPRINGFIELD.—On S. MISSOURI. On the morning of June 8th, a large concourse of people were assembled at St. Paul's Church, Palmyra, to witness and assist in the Ordination to the Diaconate of Mr. John Evans, A. M., a graduate of St. David's College, Wales, and Professor in St. Paul's College. Besides the Bishop of the Diocese and the Bishop of the Diocese and the Bishop of Quincy, there were present of the clergy, the Revs. F. B. Scheetz, Rector of St. James'Church, Monroe; Abiel Leonard, Rector of Trinity Church, Hannibal; and Dr. Wainwright, Rector of the Parish. Bishop Burgess preached the sermon. The candidate was presented by Rev. F. B. Scheetz. Holy Communion was celebrated, Bishop Robertson being the celebrant. There were circumstances connected with this Ordination and Celebration, eminently memorable; they constituted the last service held in the old church, whose corner-stone was laid in January, 1852 Curiosity, sometimes, gets the better of indifference, and the people attend the her stones removed to a new site, more suitable Church services in large numbers. 'This for the growth of the Church in this city. It was was true on occasion of the Bishop's recent an hour of joy in grief; joy, because of fond anticipation. A large proportion had never ticipations of a more commodious and more accessible place of worship; grief, because of the word—"farewell," which we were uttering to the venerable structure in which so many of us for years had been wont to sing the praises of the Triune God, and to feed upon the Flesh and Blood of the Master, and from which not a few of the worshippers had borne the precious dust of loved ones to the city of the dead.

On the afternoon of the same day, was laid the corner-stone of the new edifice. In addition to the clergy present at the morning session, there were also in attendance the Rev. Dr. Runcie, of St. Joseph, and Ethelbert Talbot, of Macon. A large number of citizens from the city and counlarge number of citizens from the city and country filled the grounds, many of whom are warmly interested in the work, and will doubtless add much to the future strength of the parish. Bishops Robertson and Burgess and the Rev. F. B. Scheetz, made brief, but very impressive addresses. The last gentleman, who, perhaps, has done more earnest work for the church in this part of the Dicesse than any living made of the Dicesse. done more earnest work for the church in this clergy have to battle with. There is some satisfaction in contending with parties, who give and receive blows with life and zeal; but it is simply disgusting to have to pound away on an india rubber bag where the next moment, you see no trace of your heaviest blows.

the historical churches of the State. It and has had a succession of Ministers of no ordinary name and ability. Its first pastor was the Rev. Henry Carver, D.D., Oxon. He gathered here 115 communicants, and was then called to King's Chapel, Boston, where he remained for thirty years; but, during the war of the Revolution, he went to England, and was there regarded as the father of the American clergy. The sixth minister (the Rev. Dr. Leaming), was Rector, when the town was burned by the British during the war. He lost all his own possessions in the conflagration; but, when Gen. Tryon retired, after his exploit in burning the town and church, Dr. Leaming went with him. He died, and was buried in the cemetery of the former capital of the State, in 1804, at the age of 87. The grass now nearly hides his grave; but the Rev. Dr. Jeremiah among the Colonial clergy. At one time, Dr. Bowden was the rector of St. Paul's, known by the works he has left upon Episcopacy; and it was by his hand, we are told, that the venerable elms were set out, which are now in the church yard. Another rector of note, was Dr. William Smith, who preached the sermon at the Consecration of Bishop Jarvis, a duty that is generally reserved to the Bishop. At one time Bishop Kemper held the rectorship, and so connects the parish with the great West. His wife was buried in the church yard, almost at the entering in of the church. Rev. James Cooke Richmond was sometime rector, and he was succeeded by Rev Wm. Cooper Meade, D. D., who held the rectorship for forty-four years. At his death, the Rev. C. M. Selleck, Principal of the well known Selleck School, and who is a native of Norwalk, became the rector. In the 143 years there have been 21 rectors, or an average of nearly 21 years to a rectorship. The present church (the 4th) was built in 1840. It is spacious and attractive, with large galleries upon the sides; and with a chancel, which, if occasion should require, might well serve for a chapel, so large is it. The church, burnt in the year 1779, by order of the British General Tryon, was the second church of the parish. The congregation is large; there are 350 communicants; and 300 Sunday School children; and we can form some idea of the liberality of the people, by the fact, that the last rector is said to have disbursed \$100,000 of the Offerings of the parish. Hard by the church, is the rectory. The two lots upon which the church and rectory are built, are large, and face upon the public square. The church is approached through an avenue of elms; and, on either side of the walk, are the graves of many of the dead parishioners. On one of the grave-stones we noticed the date of 1763, and the monument of Dr. Meade was marked with an Offering of fragrant flowers. From the church, we ex-

They be the words of our Saviour Christ to His Apostles: and they contain a commission granted by Him to them; which commission is His first largess after His rising again. A commission is nothing else but the imparting of a power which before they had not. First He imparteth to them a power, a power over sins; either for the remitting or the retaining of them, as the persons be qualified. Christ truly is the Saviour of the whote man, both soul and body, from the first and sec-ond death. Sin, the death of the soul and the rising from it. What power is necessary to raise the dead body out of the dust, the very same is requisite to raise the dead soul out of sin. Hon. Joshua Tuthill, of East Saginaw, Mich., says: "Count me among the enthusiastic friends of Hunt's Remedy. It has proven in my case all you claim for it. Having suffered for about twenty years with severe disease of the kidneys (which our local physicians pronounced Bright's disease), I made a journey East to consult the eminent Dr. Haven, of Hamilton, New York, of whose fame in this specialty I had heard much. Dr. Haven examined me carefully and simply said, 'go and get a bottle of Hunt's Remedy and take according to directions.' After having traveled so far for treatment, it struck me as rather funny to be directed to take a medicine which I might have bought within a stone's throw of my own door, but I was in the doctor's hands, and of course I followed his advice, and right glad was I that I didso, for before I had taken Hunt's Remedy half a dozen times I found immense benefit from it, and by continuing the use of it for a limited time I recovered from my trouble entirely, and am to-day, I think one of the most rugged of rugged Michiganders. The Seventeeth Century as a Dissolving View.

The period of the Reformation was not only destructive, but reconstructive. More was destroyed on the Continent and in Scotland, than in England. The process of reconstruction was more radical, where the process of destruction had been most sweeping. Calvin and Knox not only destroyed the Church, but they established a system of philosophy which as really and truly corrupted Christianity, as the Aristotelian philosophy had done under the unreformed schoolmen. In England, continental ideas got some hearing; but the Church was not destroyed, nor did Genevan metaphysics crowd out the ancient Catholic Faith, as contained in the Creeds.

But the seventeenth century, sternly grand as it was in many aspects of its work, could not so reconstruct Christianity, as to settle the case for all time. In England, the nineteenth century has seen fit to relegate Calvinistic dogmas to the limbo of defunct half truths; and the Church of England breathes more freely her own na tive, Catholic air. In Geneva, there is little left but a dry and heathen rationalism. Of Germany, we need not speak. But Scotland begins to reject the old recon struction, as a finality. A leading Presbyterian organ says: "The theological dialect of the seventeenth century, as it is to the mean-minded man, who is forced embodied in the Westminster standards, to feel his own littleness in the comparidoes need, now and then to be translated son. He imagines that in proportion as into the language of the nineteenth. We he belittles his neighbor, he will magnify cannot conduct all our fighting in that himself. So it or south of the Tweed, preached. We have to face problems that those good forefathers of ours knew nothing of. Much has had to be altered or modified."

The nineteenth century may well be termed the age of the new reconstruction. Every where old crystallizations are break- and classes. "Preferring one Another."

We do not advocate a charity broader than the Gospel's golden rule, nor do we argue that a man should "prefer," in the ordinary meaning of the word, his neighbor to himself. It is enough, if he love his neighbor as himself! and more than this the Master did not enjoin.

The preferring of one another in honor, means, as we understand it, the holding up of the good name and fame of one's neighbor, and the using of every right means and reputation before the world. The Apostolic precept applies as well to these times, as to the days when the disciples were first called Christians at Antioch.

It is one of the strange preversities of human nature, that leads men to disparage each other, even when there is not the favor. slightest motive of malice. To discover the faults and flaws of other people seems to minister to self complacency and satisfaction with one's own condition and attainments; and the nearer these people are to our own station and occupation in life, the greater is the temptation to depreciate their talents, and criticise their work. It was a sad saying, but a true one, that a prophet is without honor in his own country. It is so, not only because his country men are too near him, and too familiar with the common phases of his life, to be impressed with his greatness in a sphere above their own, but also because they are not disposed to recognize any excellence that puts their own attainments to unfavorable comparison.

This depreciating and dishonoring of one another, is a most unlovely and unchristian manifestation of human nature; and it is far too prevalent even in the learned professions, and among those who are brethren in the Lord. It springs out of the old root of vanity and selfishness. The success and praise of others is stinging comes that men pick flaws, and find fault er motive, only that he may obey the comwith each other, sow the seeds of suspicion, and left, wherever they go.

"Who are Christians?"

The Alliance asks the question, and then

answers it to its own satisfaction, at least:

-"A Christian is, technically and intellectually, one who believes that Christ is the Son of God." Such a definition may do for those who deny the Kingdom, whose only notion of a Church, is-that it is a voluntary "society" or "sisterhood of societies." According to their supposition, a man becomes a Christian, privately, whenever he chooses; and ceases to be one whenever he chooses. The matter may have some relation to the man's attitude towards Christ; but they do not think of it in reference to the King who rules over the subjects of His Kingdom. This theory of the Congregationalists has come to be very popular in "the States." It is, that a man becomes a Christian, on his own motion privately, and then, because he has become, and is already a Christian, he joins some "society;" the "M. E." or "U. matter of inclination; or it from any highmand as to Baptism and the Lord's Supper, out of the thought of the modern sectarian.

It is hardly credible that—in this year of our Lord, 1880, here in America, Christian people should be found still discussexceeding broad mantle of charity which ing the question as to "who are Christians?" Evidently, to many of our day, St. Paul would not have said-"therefore leaving the principles of the doctrine of Christ, let us go on unto perfection;" but rather "Ye have need that one teach you again which be the first principles of the oracles of God;" and so would lay again "the of baptisms, and of laying on of hands, and of the resurrection of the dead, and of eternal judgment."

In holding to this apostolic rule of membership in the Kingdom, as constituting a man a Christian, we do not by any means predicate the eternal salvation of all who have this title to the name; nor do we deny it to all such as may fail to have it. forth the fruits of godliness, and to secure the renewal of the heart, and the reformation of the life; while, on the other hand, souls, who, like the dying thief, shall be with Christ in Paradise; and many may come from the East and the West to inherit Kingdom, who have been faithless, shall be cast out. Still, this does not affect the issue as to who are Christians, now and here. "As many as have been baptized into Christ, have put on Christ." As to whether there be few or many who shall be saved, the master answered that by saying, "Strive to enter in at the straight gate."

MISSISSIPPI.—A paper published at Canton, in this diocese, publishes, in a recent issue, a series of Resolutions (which we subjoin), passed by the Vestry of Grace Church in that city, upon occasion of the resignation of the rectorship by the Rev. Dr. Cross.

WHEREAS, Our beloved Rector, the Rev. Joseph Cross, has tendered his resignation, on account of the necessity for change of climate, induced by the ill health of his estimable wife,

in his new field of labor.

Resolved, That society here suffers a great loss in the departure of Mrs. Cross, whose piety and many graces of mind and manners, and whose genial character so well fit her for the position she fills, and which have so endeared her to our

community.

Resolved, That our city paper be requested to publish these proceedings, and that a copy of same be handed to the Rev. Dr. Cross. EUGENE CONWAY, Secretary.

QUINCY.—We are happy to have it in our power to congratulate our good brother, the Rev. A. B. Allen, Rector of Trinity Church, Rock Island, as well as his flock, upon the munificent donation lately made to the parish, by Judge Lynde and Mr. Porter Skinner. The objects to be accomplished by means of this gift are two fold, viz.: the liquidation of a debt upon the Rectory, amounting to something upwards of \$4,300; and the purchase of a pipe-organ for the church, at a cost of \$2,500. The two gentlemen just mentioned have given, towards these objects, the sum of \$4,000; and the balance will be paid by other members of the parish. "The next step forward, for Trinity Church," says a local paper, "will be the building of a chapel in the lower part of the city, where services can be held, and for the accommodation of the Sunday School of 100 children, which was established in November last. It is believed that this hoped-for event will be accomplished before the summer

NEW YORK .- Grace Church is making a handsome adition to its buildings, in the same general style of architecture. It will cost some \$28,000, and we presume will owe its existence to the same beneficence that has already done so much for that parish. It is to be used for general purposes, for meetings of vestry and committees. There will be connected with it a diet kitchen and a mortuary chamber; the latter, as a place where those who die at our hotels, and must be removed at once, can be preserved, until proper

arrangements can be made for their burial. St. Barnabas' House kept its fifteenth anniversary last week. The report of the branch Mission, read by Rev. Mr. Woodruff, showed a large amount of work done. For the year ending June 11th, 1880, there were admitted into the House, 1,824 women and children; situations were procured for 525 persons; 392 were sent to C. B. Smith, and Drs. Watson and Peters. The First Problem.

The Soliloquy of a Rationalistic Chicken.

BY S. J. STONE, M.A.

Most strange! Most queer,-although most excellent a change Most queer,—although most excellent a change Shades of the prison-house, ye disappear! My fettered thoughts have won a wider range, And, like my legs, are free; No longer huddled up so pitiably; Free now to pry and probe, and peer and peer, And make these mysteries out; Shall a free-thinking chicken live in doubt? For now in doubt undoubtedly I am:

For now in doubt undoubtedly I am; This Problem's very heavy on my mind, And I'm not one to either shrink or sham; I won't be blinded, and I won't be blind.

Now let me see:
First, I would know how did I get in there?
Then, where was I of yore? Besides, why didn't I get out before? Dear me! Here are three puzzles (out of plenty more),

Enough to give me pip upon the brain!
But let me think again.
How do I know I ever was inside? Now I reflect, it is, I do maintain, Less than my reason, and beneath my pride, To think that I could dwell

In such a paltry, miserable cell

As that old shell,

Of course I couldn't! How could I have lain
Body and beak and feathers, legs and wings

And my deep heart's imaginings,
In there?

I meet the notion with profound disdain;
It's quite incredible; since I declare (And I'm a chicken that you can't deceive), What I can't understand I won't believe. Where did I come from, then? Ah! where in

This is the riddle monstrous hard to read; I have it! Why, of course, All things are moulded by some plastic force Out of some atoms somewhere up in space, Tortuitously concurrent anywhere.

That's plain as is the beak upon my face.
What's that I hear? My mother cackling at me! Just her way; So prejudiced and ignorant, I say; So far behind the wisdom of the day. What's old I can't revere Hark at her! "You're a silly chick, my dear; That's quite as plain, alack! As is the piece of shell upon your back!"

How bigoted! upon my back, indeed?

I don't believe its there, For I can't see it; and I do declare, For all her fond deceivin, What I can't see, I never will believe in.

The Old Sea-king and His Daughters.

Truth and Fiction.

Translated from the German of Johann Meyer, by Flora E. Pettibone.

Concluded.

And the sorm raged with greater and greater violence; the waves rose higher and higher; and then-already again!-and even again! and how it roared against lock and bolt! And there! there! on the floor in the room! there it was already gushing out through the seams of the boards, clear and bright, like a hundred little spirting

"The flood! the flood!" cried the mother. "Lord God! the flood! it is already coming into the house! we must flee!"

But whither?—it had, you know, been a long time, too, out-doors there. Water all around; nothing but water, even across the whole plain, all the way to the distant hills! And the roaring mass was already rushing forth, a foaming stream, across a large part of the island, from one shore away to the other; and over the other into the sea again.

So then, even the father had been mistaken; he-the pilot, wise in wind and weather. He had never yet experienced such a flood, nor any one besides, on the whole island.

But for that very reason he even still kept believing, that now, at least, it would not rise any higher; he still kept on comforting the mother-"It can not last much longer;" and yet still it lasted longer, and still the raging s-a kept rising higher, and the waves kept thundering more violently against door and walls.

Who will rescue the poor souls from the hard-pressed house? Yes, who will rescue all the others? There are probably many of those whom the treacherous sea surprised; such a flood had not been known for centuries.

And still it kept rising higher; the poor little family fled out of the room into the attic of the house. And still it kept rising higher, and the storm kept howling more furiously.

Then the door of the house broke in; a mighty blow of the waves had shattered it; then the window-panes crashed, and the sea rushed in! And still it kept rising higher—higher; Lord God in heaven!

Lord God in heaven! and if now the walls fall too! How the floor is already trembling, how the roof rocks! And there they crouch, clinging to the rafters, wailing and shrieking for help!

But who was to save them? Only One could do it, He who rules over the storm and sea, also; His love is endless, but His ways are past finding out!

One horrible roar of the waves, high up to the top of the house,—one terrible cry, -and the sea had swallowed up the unfortunates. And then the little house had disappeared; only a part of the roof came up again, and there it drifted, driven along in the storm.

Thou awful element! what had they, the unfortunate ones, done to thee, that thy wild waves buried them?

And how had that happened? It has appeared in all the papers; and he who tells you this story, has read it also, has written it off, in his way-and here it is:

AN APPEAL.

Shortly before the fatal moment, the elder son--Jacob Friedrich--had succeeded in climbing up on the rafters, and in obtaining, upon the top of the house, a position which was, according to the circumstances, somewhat more secure, by pushing his feet within the lath-work, the rafters and lath-work still remaining in connection with the floor found beneath. In this manner he drifted away, on the morning of the 13th of Nov., out into the sea, given up to the most furious violence of the waves, as well as to the rawness of a cold winter's night, half famished, and perishing with the wet. Nevertheless, the brave boy did not lose his presence of mind. Like an old experienced sailor, he sought to push off the tiles of the roof, as far as he could reach them, as superfluous ballast. When it began to dawn on the 14th of November, he was at some distance from the harbor of Kiel. Towards noon-day, he was noticed on his fragile vessel, by a French ship which was seeking that harbor. The gallant Captain* had a boat instantly sent out with four men, who succeeded, after great toil and difficulty, in taking the boy up and bringing him on board. After receiving here the most tender care and treatment, he was carried to Kiel, and given over to the further protection of the jurisdiction of the country.

A greater knowledge of Western civiliindividual Chinese foreign education is something of a fortune, and is the surest stiff; his brain burned like fire, and his capital with which they can be invested. The saying "Knowledge is power," is well borne out in this case, for foreign knowledge is almost certain to obtain for a Chinaman a lucrative appointment and an improved social position. Parents are now realising this fact, and many of the well-to do Chinese are anxious to send their sons to Europe or America to be educated. The advantage of such an education can hardly be over estimated in the case of those who have before them official or public careers. At the same time there are considerable drawbacks to going abroad, and it may be questioned whether, in many instances, equally good results could not be secured without incurring so great a loss of time and expense,-a loss so considerable as to prevent the benefit being enjoyed by all but the wealthy, or those supported by other than the family funds. For of course the sons of even what may be called the middle classes cannot afford to leave their country in order to be educated; and, unless they can receive foreign instruction in China, will not residence abroad possesses some advantages which cannot be obtained in China; yet, except in rare cases, those particular ad-

It would be very incorrect to speak of the local Polytechnic as a failure; but it is as yet a long way from having realised the objects of its promoters. Its educational facilities are great, and though it is now doing good and useful work, we trust to see it become something very different to what it is at the present moment. There are few institutions in Hong-kong which have conferred greater benefits on the Chinese than the Central School; and it is surprising that an attempt has not been made to establish something of the kind at Shanghai. The St. John's College will, it is hoped, contribute towards supplying what is a seriously-felt want. At this institution, the course of instruction comprises the English Language and Literature, Geography, History, *Rene Cabon, Captain of the French Brig Locquirece, from Morlaix. But the two institutions are of a different character, and it could hardly be expected that the work carried on at St. John's With small means the good work has should be purely secular. The promoters a spirit which, under the the circumstances, must, we think, be considered liberal. They wish it to be distinctly understood "that St. John's College is a literary and scientific school, and not per se a theological institute." A student must attend the daily prayers at chapel and the usual Sunday services, but in other respects he is free to devote himself to the secular side of the daily routine of class work. Many people would have been glad if the authoritieshad all wed attendance at prayers and Sunday service, to be voluntary, and probably the chief end in view might have been better reached in that manner. Yet, though the requirement may restrict the us fulness of the institution, preventing it being generally availed of, we are pleased to call attention to it as being calculated to confer great advantages on the Chinese of publicity. It may be well to note that the charge for board and tuition is exceedingly moderate.

French and American Luxury.

It is sometimes thought, says the Parisian, that the reign of luxury ended with the fall of the Second Empire. This is a mistake. It is true there is not now, as of yore, a Court to lead, give the example, and incite in matters of fashion; but there are facts to prove that the Republican Paris of to day is quite as gay and luxurious a capital as it was twelve years ago, when the Empress and her ladies-in-waiting were driven to the Bois and to Longchamps. Truro Cathedral.

We abridge, from the London Church Review, a very interesting article upon the recent laying of the corner-stone of the proposed edifice.

The laying the foundation-stone of Truro Cathedral, on May 20, was an event in the history of England. For not merely three, but it may be for six, centuries no new cathedral church has been commenced in England. Perhaps the last cathedral begun in England before Truro was when the illustrous Church of Sarum had a new cathedral founded in Salisbury under the reign of Henry III. If that were, indeed, as is said, the case, then nearly six, and not four, centuries have elapsed since the foundation of a new cathedral was laid in England. St. Paul's Cathedral, it should be remembered, is built on the site of old St. Paul's, one of the finest European cathedrals, destroyed in the great fire of London.

The event of Thursday was then more than a mere pageant. Had it been done in the simplest possible manner the laying of the foundation-stone of the first cathedral in England since the Reformation, or, as some say, since the thirteenth century, and all own since the fifteenth, was a great historical event, an event in the annals of England, an event in the history of Holy Church. As a pageant, however, the laying of the foundation-stone by the Prince of Wales, was not contemptible. It is true that those who had to organize it had great difficulties to contend with.

Only a few sessions ago, an M.P. in the House of Commons declared that fivesixths of the population of Cornwall were Dissenters. The statement was probably true at the time, though perhaps hardly so at this moment, as even the three short years of Bishop Benson's episcopate have effected great changes. How could the minority of a by no means populous country effect a great demonstration and organize great court pageant?

Yet they have done so, and even from a secular standpoint the display was imposing, while from an ecclesiastical point of view it was a most striking sign of the times. Such a Service, even ten years ago, under episcopal auspices, would have been the days of the Empire, the Princess Met- simply impossible. In one curious point, however, history repeated itself. It was a Danish King who first joined the Cornish and the Devonshire sees, and it was an Anglo-Saxon king who combined both finally in Exeter .It was an English prince and Danish princess who presided at the public ceremony of the foundation of this new cathedral of the restored Cornish dio-

> On the whole, the day was one of the most remarkable in the annals of the West of England. The restoration of the diocese after eight centuries suspension was a remarkable and somewhat singular event in Church history, and this restoration had its public seal given it, so to speak, by both Church and State in the function of May 20.

The Prince of Wales was, no doubt, the fitting person to lay the foundation-stone of the first cathedral in England which has been laid for centuries. It is a kingly rather than an episcopal act. As the Temple of old was rather the work of Solomon than the high priest, so the laying the foundation-stone of a Christian cathedral is rather appropriate to a king than a Bish-

The Buffalo Church Home Festival.

Correspondence of the LIVING CHURCH. This branch of the work of The Church Charity Foundation in the State of New York, held its annual festival in the grounds of the Institution during the afternoon and evening of June 16, proving a brilliant and non-action, of the majority of the late Conand successful affair, the attendance up to vention. In his letter, Dr. Richey vindicates, a late hour being very large. The Foundation, resting upon a charter obtained from the Legislature of the State, is intended to cover a wide range of charities, the founders and those interested in the management, having in view the establishing upon it, a complete system of benevolent institutions, so arranged as to be mutually protective, thus enabling the Church in Buffalo to carry out the letter and the spirit of her Divine Lord's principles of charity. Laboring in the interests of this Foundation, the aim is not simply to build up institutions, but to open homes and houses of refuge, where the Church can receive and extend a loving care over such of her children as have been overtaken by mis-

The situation is very beautiful and healthful, and it needs but the generous interest of those blessed with abundant means to secure its enlargement, as to grounds and building, to the extension of a glorious and most noble charity. Under the kindly guidance of Sister Louise, we looked through the building, and can bear witness to its being a model of neatness and cleanliness. Infancy and old age are alike made comfortable, and it was a pleasant thing indeed to see the helpless so well cared for. If only the good people of Buffalo, as of other places, indeed, could realize the immense value to their kind that such institutions are, we feel very sure that their gifts in such direction would be more frequent as well as will doubtless prove of only temporary duration. which God has blessed them. MINNESOTA, June 14, 1880.

The difficulty of conduct, says Froude, does not lie in knowing what it is right to do, but in doing it when known. Intellectual culture does not touch the conscience. It provides no motive to overcome the weakness of the will, and with wider knowledge it brings also new temp-

The Church in Maryland.

Correspondence of the LIVING CHURCH.

BALTIMORE, June 19, 1880. But little of note has occurred in Church cirles, since the Convention adjourned. Dr. Richey's open letter to the Bishop, has, however, re-awakened the general interest in the actions by reference to historical precedent, the Right of Petition, which was opposed by the majority, in the late Convention. He protests against the arbitrary rulings of the Bishop, as being contrary to all parliamentary law; and he solemnly protests against the action of the majority as a whole, in the tactics used by them to oppress the majority. The language used in this letter is plain, strong and to the point, and yet entirely respectful. The letter is calculated to cause the leaders of the majority to pause and reflect. Though a Professor in the General Theological Seminary, Dr. Richey is a Canonical resident of Maryland; having a seat and vote in the Convention.

Rev. Dr. Fair has adopted a new plan, for encouraging scholars, in his Sunday School, to be studious and orderly. He has taken two, a boy and a girl, to Europe with him, this year, as a reward for good conduct and good scholarship. Few of our clergymen could offer such rewards; and fewer would be willing to undertake, in person, the task of paying the premium, when earned. Is it any wonder that Rev. Dr. Fair is a popular man in his congregation? And I may with perfect justice say that no man has done more for his people than he. His personal means are used freely to advance every work that is unare used freely to advance every work that is un-dertaken by Ascension Church; and their works of General Domestic Missions. It seems to have

Bishop Penick, of Africa, preached twice in Baltimore, on the third Sunday after Trinity, in the morning at Christ Church, and at night at St. Peter's. The Bishop is improving his opportunities for reaching his old friends and the Church in general; and is doing much toward

There has arisen a slight misunderstanding between the Rector and Vestry of the Church of the Messiah, and the Brotherhood connected with that Church, growing out of a proposed excursion, and some other matters. The Rector, by the advice of the Vestry, disowned the Broth- and the erhood, and the Brotherhood (some few at least) have left the Church. The affair is painful, but greater in proportion to the means with I should not mention it, had the daily press not

Bishop Pinkney recently visited St. John's Church, Georgetown, D. C. (Rev. John J. Joyce, Jr., Rector), and confirmed a class; he also preached. In the morning of the same day, he visited Emmanuel Church, Anacostia Parish, D. C. (Rev. J.M. E. McKee, Rector), preaching, and administering the rite of Confirmation.

The new Rectory of the Church of the Ascension, Westminster, is at length completed. The Rev. J. Stewart Smith has taken up his residence therein; and it is fast assuming a home-like appearance. The Rectory is built of brick a the Swiss cottage style. It is most admirably situated, being directly opposite the church. The sacred edifice itself is a beautiful stone structure, whose walls are almost lost sight of among the building are covered. The church stands back in a lawn, and is hidden from public view by several fine trees; the effect is most lovely. At the left of the rectory, not twenty yards off, is the chapel and Sunday School. It is a comparlate rector, Rev. Mr. Nicholson, now of St. Marks's Church, Philadelphia. The chapel is a frame building, and is quite pretty. The Church people of Westminster deserve great praise for their generous Offerings of time and means operation with their spiritual head, the Rector, is by him fully appreciated, and it enables him to labor with redoubled energy for their greater advantage. If more congregations were as faithful and helpful, we should see less frequent movings of the clergy from parish to parish.

The Diocese of Easton and the Paro chial System. Correspondence of the Living Church.

The Convention of the Diocese of Easton met in St. Paul's Church, Centreville, on Wednesday, June 2nd. The following were elected Deputies to the General Convention: Rev. Drs. Barber and Barton, Rev. Messrs. Dashiell and Wattson; and Messrs. Adkins, Goldsborough, Walker, and Condon. One of the Resolutions adopted by the Convention suggests to these Deputies a ccurse of action, which, if adopted by the General Convention, would touch, what, I observe, you speak of as the stirring question of the day, at a new point, and the only one, where, as it seems to me, the wedge can, at present be made to enter. The Bishop having referred, in his Address, to the Psrish System, and to the remarks of the Bishop of Long Island concerning it, a Committee was appointed to report upon this part of his Address. I give you certain parts of their Report, with the Resolutions adopted by the Convention.

"Your Committee hasten to express, at the outset, their hearty concurrence in the practical suggestions of the Bishop, as to the advisability of wisely using, rather than abolishing or radically changing the Parochial System, so far as they apply to the condition of things in our own

Diocese. The division of all our territory by parochial lines, so that there is no part of it, which is not included in some parish, assimulates our condition to that of the Church of England, and retains for us the parochial system proper, with which, what exists in most parts of the country, is constantly confounded; while, in point of fact, the two things have very little in common. If we can keep out the spirit of Congregationalism, secure for the Diocese and its head their proper place in the affections and consciences of the people; and make the Vestry an efficient working body, with just those functions, which by our State are very strictly and very wisely laid down, instead of a body with few or no duties, but with unlimited rights (to be held in abeyance, till there is an opportunity to make the Rector feel that his only function is to be agreeable to those, whom the Church has bidden him teach and premonish, warn and rebuke), then, notwithstanding certain grave financial difficulties, which will still remain to be met, the Parochial System, as we have it, may be made, in the judgment of your Committee, an efficient instrument for doing Church work, in the fractional parts of the true unit work, in the fractional parts of the true unit-the Diocese.

"When your Committee look beyond the limits of our own Diocese (as it is natural for them to do, in view of the approach of the General Convention, in which we are to be represented), they vention, in which we are to be represented), they see, in the Congregational system, which is called parochial, methods and principles of organization and practical work, apparently essential features of the system, which are, in their judgment, utterly opposed to the very elements of a true Church polity, and absolutely irreconcilable with them. They do not however profess to see any practicable means of removing the evil in established Dioceses, nor is it their business to look for these means.

"There is, however, a department of Church work, in which we are all interested, and for which we are, in our own measure, responsible since the General Convention has entire control been supposed by those who have hitherto written and spoken on the Parochial System, that it had no existence within our Missionary Jurisdictions, and indeed, the most indefatigable—and perhaps the ablest of the opponents of that System—alluded, on one occasion, to our Domestic Missionaries. Missionaries, as men, who, with all their hard-ships, were at least free to work for Christ, and not for vestries and the constituencies of vestries. Church in general; and is doing much toward producing a lively interest in African Missions. He has adopted a plan which he says has so far worked admirably. He makes it a rule never to beg; he cays the Church should not beg for gifts to carry on her work, but the people should be taught to beg for the privilege of giving Offerings to God. He says that he has never, and will never, ask for a single cent toward his work. Let us hope his faith will be rewarded.

The for vestries and the constituencies of vestries. The productions of some of the Jurisdictions have taken such steps as they were able in the absence of authority, to enact Canons, to organize Missions, from which many of the objectional features, of the Parochial System have been carefully excluded. Nevertheless, many parishes do exist, and it is within the knowledge of your Committee, one of whose members has labored "at the front," that the Bishops and Convocations of some of the Jurisdictions have taken such steps as they were able in the absence of authority, to enact Canons, to organize Missions, from which many of the objectional features, of the Parochial System have been carefully excluded. Nevertheless, many parishes do exist, and it is within the knowledge of your Committee, one of whose members has labored "at the front," the productions have taken such steps as they were able in the absence of authority, to enact Canons, to organize Missions, from which many of the objectional features, of the Parochial System have been carefully excluded. Nevertheless, many parishes do exist, and it is within the knowledge of your Committee, one of whose members has labored "at the Fight Parishes do exist, and it is within the knowledge of your Committee, one of whose members has labored at the Parishes do exist, and it is within the knowledge of your Committee, one of whose members has labored at the fight Parishes do exist, and it is within the knowledge of your Committee, one of whose members has labored at the fight Parishes do exist, and it is within gree far greater than is felt at the East, to hindrances in their work, arising from the control of the purse by ungodly men in positions of social power and influence. If the Church knew how her Domestic Mission work is blocked and how her Domestic Mission work is blocked and thwarted, from this one cause alone, she would not long delay to apply a remedy both radical and thorough.

Your Committee beg leave to offer the follow-ing resolutions:

Resolved: That the thanks of the Convention

be tendered to the Bishop, for boldly and faithfully grappling with a question, which, though difficult and forbidding, must be met and solved, if the Church is to do her work faithfully and successfully; and for his wise suggestions concerning our way duty with record to it.

successfully; and for his wise suggestions concerning our own duty with regard to it.

Resolved: That the deputies of this Diocese to the General Convention be requested to use whatever means may be found available through the action of that body, as the Board of Missions of the Church, for making our Domestic Missionaries wholly dependent, for their support, upon the Board of Missions, acting through the respective Missionary Bishops."

These Resolutions, were, I think, unanimously adopted. Two of the members of the Committee which reported these, are deputies to the General Convention. The question was asked of that member of the Committee, who had labored "at the front," how the last Resolution could be made of any particular value. His reply was to this purport: Let the Board of Managers or the Secretary ascertain, with regard to every point, where a clergyman labors who is now in part supported by the Board, how much the people contribute, or how much they can contribute towards the support of a minister. Let the Board, the Bishop, and the Missionary combine to secure the contribution of that amount to the funds of the Board, to be used within the Missionary Jurisdiction to which the parish or station belongs. Let the sum be added to that already appropriated for this station; and the two taken together constitute the Missionary's stipend from the Board in the future. This simple, practicable change, and an undeviating course of action based upon it, will both strengthen the Missionary, and-by giving him perfect freedom and independence in urging his people to liberal giving-increase the receipts from the Mission Field. An ostrich, long on exhibition at Rome, having been suffocated by thrusting its neck between the bars, there were found in its stomach four large stones, eleven smaller ones, seven nails, a neck-tie pin, an envelope, thirteen copper coins, fourteen beads, one French franc, two small keys, a piece of a handkerchief, a silver medal of the Pope, and the cross of an Italian Order.

The following are samples of letters that are aildy being received by the Electro Magnetic Co., 149 Clark street, showing the great work being accomplished by the Electro Magnetic Pad:

45 SOUTH CURTIS ST., CHICAGO, April 21, 1880. I put on the Electro Magnetic Pad for nursing sore mouth. Had been troubled with indigessore mouth. Had been troubled with indigestion previous to wearing the pad. Had not been able to eat a meal for two months on account of my sore mouth, and was growing worse all the time until I put on the pad, which cured me in about two weeks of both troubles. I can heartly recommend it to all suffering from like causes.

MRS. D. B. WOODBURY."

HOMER, IND., April 28, 1880 This is to certify that after having had

ague nearly constantly for fifteen months, I was induced to try one of your Electro Magnetic Pads, and never had the ague after commencing to wear it. I must say that it has completely cured me.

"NEW ALBANY, IND., Mch. 28, '80. There resides in our city a young man by the name of Wiseman, who it is said had consump-tion. He had not been able to work for two years, and was entirely given up by two prominent physicians. But he having heard of the Electro Magnetic Pad, purchased one. He took no medicine, but has been wearing the pad about one month, and is now able to do a day's work.
Any one wishing to interview him on the subject,
can do so by calling at his house, corner Lower

PHARISBURG, O., May 19. Pharisburg, O., May 19.

Messrs. J. N. Harris & Co.—Gentlemen.—Permit me to say that for severol weeks I suffered with a severe cough. I used Denig's Cough Balsam, and after that several other preparations, each of which I gave a fair trial, which availed me nothing. For the succeeding six days I used no medicine. By that time I was thought in the first stages of consumption. My cough being more severe than ever, I then commenced using Allen's Lung Balsam, which has effectually cured me. I conscientiously believe it to be an excellent medicine, and can assure you that it will afford me the highest possible gratification to commend it to any person you may refer to me.

Yours truly, Newton Murphy.
